

# You Don't Care

You say we must go slow that we must wait, that we must protect progress and growth,  
from any change Am G Dm C

A sensible man, with a balanced view, see it all go by, and you don't care Am G Dm

You don't care, if we melt the ice and oceans rise, you don't want to pay the price, F C  
you don't care, you just don't care Cm7 F

If farmlands dry, if species die, if forest fires multiply, Dm C  
you don't care, you just don't care Cm7 F

It's always something else and somewhere else, for everything we need to do, some  
other time

You mobilize against a carbon price, while the emissions rise, but you don't care,  
It's not hard to make polluters pay, to make emissions go away,  
it's not hard, but you don't care

It's a race against the clock, and you know emissions can be stopped,  
it's not hard, but you don't care,

you don't care, you don't care, you don't care, you just don't care, (4x)

Am G Dm C6(Am7)

There's always some excuse or reason why, to let it all go by, and justify, not to try  
But your ways won't last, you'll soon be passed, and you will learn, the tide has turned  
cause we care and we will stop this climate rape, this carbon dioxide,  
this terracide, before too late

With the future of this earth at stake, for the billions to be born, we will do, what it takes

cause we care, we do care, we do care, we all do care
